

IESSS

International Electrical Steel Sheet Summit
22–23 April 2026 in Aachen

SMART STEEL.
SMARTER DRIVES.
GREENER FUTURE.

EXHIBITING DURING IESSS 22-23 APRIL 2026

The International Electrical Steel Sheet Summit (IESSS) is a specialist conference focused on the role of electrical steel in high-efficiency electric motors used across a wide range of applications in mobility, industry, and energy systems.

The Summit brings together stakeholders from across the entire value chain – including steel producers, component suppliers, motor designers, end-product manufactures, researchers, and policymakers – to exchange knowledge, foster innovation, and work towards common standards.

If you are active within the field of electrical steel sheet and wish to present your company and your products, you can use the opportunity to exhibit during the Summit. If you are unable to find a suitable option below, we will be happy to make a tailor-made offer to better meet your needs.

Sponsor

8,000 EUR
